Dear TLRWDCC folks,

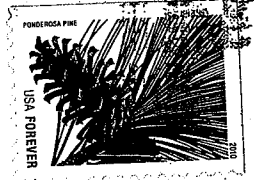

I'm writing to tell you I'm totally opposed to the proposed toxic waste dump site in west Tx. There's coming thru Tx could have accident, derailments and the radiation would kill many and pollute much of state for 1000's of years. There is no means to contain the waste forever. Leaks would mean ground water, perhaps air full of radiation for 1000's of years. Let Vermont and the other states find their own solutions there. Don't pollute Texas

Sincerely

Pelle Coleman
