

TEXAS LOW-LEVEL RADIOACTIVE WASTE DISPOSAL
COMPACT COMMISSION

Order Authorizing the Export of Waste

Vermont Yankee Nuclear Power Station/Entergy Nuclear Operations, Inc.

On or about 30 November 2009 the Texas Low-Level Radioactive Waste Disposal Compact Commission ("Commission") received from Vermont Yankee Nuclear Power Station/Entergy Nuclear Operations, Inc. ("Vermont Yankee") a Petition to amend a portion of the Commission Order dated 9 September 2009 which authorizes Vermont Yankee to Export Class A Low-Level Radioactive Waste for Permanent Disposal (the "Petition") in the EnergySolutions, LLC facility located near Clive, Utah. The Petition was filed pursuant to Section 3.05(7) of the Texas Low-Level Radioactive Waste Disposal Compact.

By a unanimous vote of those present, with one absent, at the Commission's meeting posted for 10 – 11 December 2009, a majority of the members of the Commission approved the Petition filed by Vermont Yankee on the terms stated in the Petition, subject only to the following terms and conditions:

1. Vermont Yankee will supply to the Commission:
 - a. Manifests and/or reports of volume, mass, and activity sent for ultimate disposal which are satisfactory to the Commission.
 - b. Final reconciliation of waste volume concluded not later than 180 days post Order period.
2. The period of the shipment of the waste from the site of generation is authorized as effective from 31 July 2009 and shall expire on 30 September 2010.
3. Granting of this Order does not preclude the Commission's consideration of the imposition of export fees at a future date, which fees might be applicable to the export of waste under this order.

It is hereby ordered that Vermont Yankee is authorized to export low-level radioactive waste as requested in the Petition, subject to the terms and condition as stated in this Order. The Petition is attached to this Order. This Order supersedes the Commission Order dated 9 September 2009.

Signed 31 December 2009
