Brandon Hurley, Chairman Texas Low-Level Radioactive Waste Disposal Compact Commission 333 Guadalupe St., #3-240 Austin, TX 78701

Re: Export Permits

Dear Mr. Hurley,

Please find Export permits for both the Texas A&M University Environmental Health and Safety Office and the Texas A&M University Nuclear Science Center. The one for the Health and Safety is a recent waste stream, while the Nuclear Science Center is for waste that was previously approved in 2015 but not shipped.

This waste will be sent for incineration at the licensed facility here in Oak Ridge, Tennessee with any ash shipped to the Clive, Utah burial site.

Feel to contact me with any questions regarding this amendment.

Sincerely,

John McCormick

III. Export Permit Period:

Export petitions generally will be granted to expire on August 31 (that is, the end if the Compact's fiscal and operating year). If you are seeking a term that would extend over more than one fiscal year, please explain the unusual circumstances that would justify a deviation from this principle?

IV. Waste proposed for exportation:

Waste Volume (Cubic Feet): 138 ft3 approximately 1,400 pounds

Waste Radioactivity (Curies): less than 0.5 mCi

Waste Classification:

Class A,

☐ Class B, and/or

☐ Class C

If Class B and/or Class C is indicated, provide explanation for cause to export.

Name and Location of Proposed Treatment and /or Disposal Facility:

Energy Solutions Oak Ridge, TN for Incineration

Approximate Date of Proposed Exportation (if known): unknown

Waste Description: Dry Solid Waste

This waste was packaged previous to the WCS burial site regulations and there would be great expense to shifting through all the material to ensure that the wastes meet the acceptance criteria of the burial site. Additionally, sorting waste with radiological hazards and that may have sharp objects imposes additional health and safety risks on workers. Incineration of this waste stream would eliminate the need to sort through the waste and would also reduce the volume of waste sent for final disposal.
