Robert C. Wilson
Chair
Texas Low Level Radioactive Waste Disposal Compact Commission
3616 Far West Blvd., Ste 117, #294
Austin, TX 78731

Dear Mr. Wilson:

Enclosed please find a "Petition to Export Low Level Radioactive Waste" from the Texas LLRW Disposal Compact for processing and following disposal at a non-compact disposal facility. This petition is being sent via email and certified mail.

I am requesting that this permit be added to the agenda of the next meeting of the Compact Commission, in January 2013.

Should you have any questions or require additional information, please contact me at (865) 306 - 2615.

Thank you in advance for your time.

Sincerely,

A handwritten signature in cursive script that reads "E. Broda".

Elizabeth Broda
Waste Logistics Coordinator

Enclosed: ArcelorMittal Vinton Petition to Export Low Level Radioactive Waste

Petition to Export Low Level Radioactive Waste

1. **Name of petitioner:** ArcelorMittal Vinton

Mailing address: P.O. Box 12843
El Paso, TX 79913

2. **Person to be contacted concerning this petition:**

Elizabeth Broda
Philotechnics
201 Renovare Blvd.
Oak Ridge, TN 37830
(865) 306-2615
ebroda@philotechnics.com

3. **Proposed out-if Compact Facility:**

US Ecology, Grand View, ID or EnergySolutions, Clive, UT.

4. **Entity that generated the waste:**

ArcelorMittal Vinton
I-10 & Vinton Rd
Vinton, TX 79835

5. **Effective period for which Petition is made:**

2012-2013

6. **Total estimated volume of Class A LLRW projected to be exported during the time for which this petition is made, including the outermost container that will be used for disposal (in cubic units):**

Less than 100 cubic feet

7. **Description of Waste:**

K061 steel electric furnace dust with radioactivity from a melted cesium 137 source.

8. **Reason that the petition should be granted, including health and safety issues, emergency needs (if any), and the economic impact on the Petitions if the Export Petition is denied:**

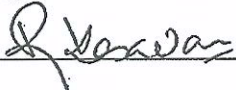

While Waste Control Specialists is licensed to do the stabilization, the building is down for maintenance and WCS is not quoting treatment for radioactive exempt material. NSSI does not have a direct outlet for the waste, therefore, a non-compact processor and disposal is necessary for treatment and disposal of the material.

9. **Certifications:**

- I hereby certify that the Petitioner is licensed (for radioactive material) and/or permitted (for hazardous waste), if applicable, and agrees to receive back the waste if its management or disposal is not allowed at the proposed disposal facility.

- I hereby certify that to the best of my knowledge the information provided herein is accurate and correct and that the low-level radioactive waste for which the Export Petition is submitted is packaged and shipped in accordance with applicable state and federal regulations and is acceptable for disposal at the intended disposal facility.
- I hereby certify that I am authorized by my company, facility, or agency to commit it to each and every obligation and condition set forth herein.
