Re: Studsvik Import Agreement 2-0009-00

Dear Ms. Ing:

Pursuant to our phone conversation, Studsvik is submitting an amendment to its Import Agreement 2-0009-00 with the Texas Low-Level Radioactive Waste Compact Commission. The purpose of the amendment is to update the activity for C-14 and Tc-99. The reason for the request is that some Studsvik customers shipped waste that differed notably from the originally expected and historical waste. Studsvik is not requesting an increase in either total Curies or volume.

Studsvik seeks to increase its C-14 allocation by 1,190 mCi. This amends Article II.K.(g)(1) to be: "C-14 31,190 millicuries (mCi)".

Studsvik seeks to increase its Tc-99 allocation by 49,335 μ Ci. This amends Article II.K.(g)(2) to be: "Tc-99 830,33 microcuries (μ Ci)".

The following table summarizes the key aspects of Agreement 2-0009-00, the requested amendment, and the updated totals.

<u>Agreement</u>	<u>Curies</u>	<u>Volume</u>	<u>C-14</u> <u>(mCi)</u>	<u>Tc-99</u> <u>(μCi)</u>	<u>I-129</u> <u>(nCi)</u>
2-0009-00	26,000 Ci	4,211 ft ³	30,000 mCi	781,000 μ Ci	131,000,000 nCi
Amendment	0 Ci	0 ft ³	1,190 mCi	49,335 μ Ci	0 nCi
Total	26,000 Ci	4,211 ft³	31,190 mCi	830,335 μCi	131,000,000 nCi

Please contact the undersigned should you have any questions or should you require any additional information. Studsvik looks forward to approval of its application.

Sincerely,

Lloyd A. Solomon
Member, Board of Managers
