Subject: Requesting Amendment to TLLRWDCC# 2-0042-00

Dear Ms. Ing:

The Commission approved Philotechnics' application and voted to enter into an agreement for importation of low-level radioactive waste into the Compact under Agreement TLLRWDCC# 2-0042-00. During the October 2, 2013 meeting, Philotechnics would like to request that the Commission allow an amendment to the Broker's Application for Importation in accordance with Commission Rule 675.23 (31 Texas administrative code 675.23). The request is clarify in the agreement that the Broker will deliver all written evidence to the Commission in no more than two information packages per shipment.

The clarification will make the examination of the documents easier to maintain and allow for multiple shipments under this agreement. Along with this addition, we are also requesting that in Section J (c) the state of Massachusetts be added to the place of origination of waste and Section J (d) to include special form material. There are no other changes to be requested to the agreement. The volume of waste and the radioactivity will remain the same.

We would be pleased to provide you with any further information upon your request if you or the Commission needs more information in order to act upon the amendment. Please contact me if there are any questions.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Elizabeth Broda".

Elizabeth Broda
Waste Logistics Coordinator
