RE: Request for amendment to Turkey Point Nuclear Import Agreement

Dear Leigh,

The Florida Power and Light Turkey Point Nuclear Plant would like to request an amendment to our Import Agreement #2-0072-00 to increase the requested disposal volume from 375 ft³ to 700 ft³ and total activity from 700 Curies to 1,000 Curies. We also request to change the total C-14 from 765 millicuries to 3500 millicuries and the total Tc-99 from 9.65 microcuries to 14,000 microcuries. We have committed to a backlog reduction of waste by year's end that has us in position to ship additional waste prior to 12/31/2014.

This is a revision to the amendment request submitted on 10/21/2014.

Your prompt assistance in this manner will be greatly appreciated.

Sincerely

A handwritten signature in black ink, appearing to be "Andy Snyder", written over a horizontal line.
