Leigh and Audrey,

TVA requests a revision to TLLRWDC #2-0080-00 to include the following:

Requested Changes	TLLRWDC # 2-0080-00	Amendment 1 Request
C-14	25 mCi	325 mCi
Tc-99	86,000 uCi	1.30 E+6
I-129	115,000 nCi	1.0E+7

The increase is due to the fact that SQN has decided to clean out their primary resin storage tank.

Thanks for your time and consideration.

Sincerely,

**Brian D. Wood**

Brian,

Thank you for your amendment request. Hope you enjoyed some time off as we did, during the Thanksgiving Holiday.
