Subject: Requesting Amendment to TLLRWDCC# 1-0106-00

Dear Ms. Ing:

The Commission approved Philotechnics' application and voted to enter into an agreement for importation of low-level radioactive waste into the Compact under Agreement TLLRWDCC# 1-0106-00 during the October 1, 2015 meeting. Philotechnics is requesting that the Commission allow an amendment to the Broker's Application for Importation in accordance with Commission Rule 675.23 (31 Texas administrative code 675.23). The request is to increase the activities from 0.800 Ci to 20 Ci.

We are also requesting that the agreement be conditionally approved to include additional generators. The export permits and letters of authorization from each generated will be provided prior to a shipment. Philotechnics will not make more than 5 shipments under this agreement. Philotechnics agrees not to make shipments under this agreement without written confirmation from the commission that the we have satisfactorily met the condition.

We would be pleased to provide you with any further information upon your request if you or the Commission needs more information in order to act upon the amendment. Please contact me if there are any questions.

Respectfully,

A handwritten signature in black ink, appearing to read "Elizabeth Broda", is enclosed in a thin black rectangular box.
