Mr. Brandon Hurley, Chairman
Texas Low-Level Radioactive Waste Disposal Compact Commission
333 Guadalupe St. #3-240
Austin, Texas 78701

Dear Mr. Hurley,

Attached you will find the signed "Agreement for Importation of Nonparty Low-Level Radioactive Waste" for the Xcel Energy-Prairie Island Nuclear Generating Plant (Generator). I apologize for the delay in returning the document in a timely manner. The document was sent to an incorrect email address.

In addition, the site would like an amendment to import agreement #2-0073-00 to extend the expiration date from 8/31/2015 to 8/31/2016. The extension is requested due to the site not being able to ship the waste addressed in the import application due to scheduling issues at our site.

Sincerely,

A handwritten signature in black ink, appearing to read 'B. Boyer', is written over a horizontal dashed line.

for Bradley Boyer, Manager
Radiation Protection
