Re: Amendment to Bionomics/Thermo Process Instruments Import Agreement #1-0097-00

Dear Mr. Hurley,

Bionomics, on behalf of Thermo Process Instruments, would like to amend our Import Agreement #1-0097-00, to increase both the volume and activity we wish to import. Currently we have 500 curies and want to raise that to 1,200 curies. We want to increase the volume from 500 cubic feet to 1,000 cubic feet.

Please amend our current agreement to reflect changes (in bold) in Article II in Section J. to the levels listed below.

1. Waste proposed for importation.

	Current approved amount	After Amendment
Waste Volume (Cubic Feet):	Total of 500 cubic feet	1,000 cubic feet
Waste Radioactivity in Curies:	500 curies	1,200.00 curies

Feel free to contact me with any questions regarding this amendment.

Sincerely,

John McCormick
