Approximate Date of Proposed Exportation (if known)

September or October 2019

Waste Description

PPE and syringe vials with biological material and/or >1% liquids by volume

Justification for Exportation

Due to the presence of biological material and liquids in the syringe vials, we are not able to reasonably comply with the Compact Facility treatment, processing, and packaging requirements. As such we are requesting to send the material for incineration to EnergySolutions Bear Creek for processing via incineration (the cheapest market option), and at this time they do not offer TLLRWDC ash shipments to the Compact Facility.

Does Applicant have any unresolved violation(s), complaint(s), unpaid fee(s), or past due report(s) with the Texas Low-Level Radioactive Waste Disposal Compact Committee?

No.

Does Applicant have any unresolved violation(s), complaint(s), unpaid fee(s), or past due reports associated with radioactive waste receipt, storage, handling, management, processing, or transportation pending with any other regulatory agency with jurisdiction to regulate radioactive material including, without limitation, the Texas Commission on Environmental Quality (TCEQ)?

No.

Applicant hereby certifies* the following:

The information provided herein is complete, accurate, and correct.

The low-level radioactive waste for which this Export Petition is submitted will be packaged and shipped in accordance with applicable state and federal regulations and is acceptable for disposal at the proposed disposal facility.

If a Broker is submitting this petition on behalf of the Petitioner, the Broker hereby certifies* the following

The Broker submitting this Export Petition is authorized by the Petitioner to act on behalf of the Petitioner related to this Permit for Exportation of InCompact waste. A copy of written documentation containing such authorization is attached to this Export Petition.
