Stephen E. Raines
Executive Director
Texas Low-Level Radioactive Waste Disposal Compact Commission
919 Congress Avenue, Suite 830
Austin, Texas 78701

Dear Mr. Raines:

With this letter, PerkinElmer is requesting additional volume and curies for disposal under Import Agreement 2-0255-00. The current Import Agreement allows for importation and disposal of 200 cubic feet and 2,500 curies during the term of the agreement.

Due to an initiative to remove additional waste related to process changes, PerkinElmer will exceed the volume and activity that was originally projected for the import period. We would like to request that an additional 1800 curies and 400 cubic feet be added to Import Agreement 2-0255-00.

In addition, we would like to request the addition of Class C waste to the Import Agreement. Our initial hard copy application included a request for Class C waste in addition to A and B. When the application was resubmitted via the online form, Class C was not included. We would like to include Class C waste as we have historically requested.

If you have any questions, please contact me at (617) 350-9030.

Sincerely,

Massimo Lombardo
EH&S Manager
PerkinElmer Inc.
