RE: Import Agreement TLLRWDC #2-0290-00
Curie Release Letter #2

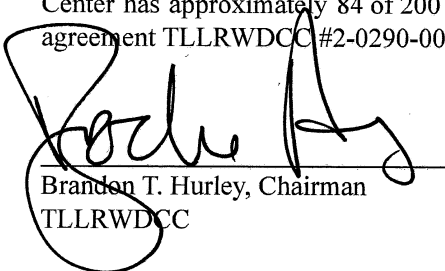

Dear Mr. Scott:

Pursuant to the condition expressed as a part of Article II.J. (c) of your Import Agreement TLLRWDC #2-0290-00 with the Texas Low-Level Radioactive Waste Disposal Compact Commission ("TLLRWDC"), I have received your request to dispose of the following shipments:

- On or about 10/03/2021: 58 cubic feet and approximately 15,840 curies

As of the date of this letter, there is sufficient remaining capacity for importation during the State of Texas Fiscal Year 2022 to accommodate the shipment of 58 cubic feet set out above. This letter does not authorize the importation to the Compact Facility in Andrews County of any additional cubic feet of low-level radioactive waste beyond the 58 cubic feet of material.

Therefore, you are authorized as of the date of your receipt of this communication to import from Duane Arnold Energy Center to the Compact Facility in Andrews County, Texas approximately 58 cubic feet of material described in your email dated September 15, 2021. This shipment is approximately 58% of the volume specified in Article II.J. of your Import Agreement TLLRWDC #2-0290-00 with the Texas Low-Level Radioactive Waste Disposal Compact Commission. With this letter, Duane Arnold Energy Center has approximately 84 of 200 cubic feet and 10,646 of 35,000 curies remaining to be shipped under agreement TLLRWDC #2-0290-00.

Brandon T. Hurley, Chairman
TLLRWDC

Date

10/2/2021
