Dear Ms. Koss:

Pursuant to the condition expressed as a part of Article II.J. (c) of your Import Agreement TLLRWDC #2-0297-00 with the Texas Low-Level Radioactive Waste Disposal Compact Commission ("TLLRWDC"), I have received your request to dispose of irradiated hardware in the following five shipments:

- On or about June 9, 2022: 8.2 cubic feet of waste with approx 12,000 Ci of activity

As of the date of this letter, there is sufficient capacity for importation during the State of Texas Fiscal Year 2022 to accommodate the shipments listed above as requested in your email dated May 6, 2022. This letter does not authorize the importation to the Compact Facility in Andrews County of any cubic feet or curies of low-level radioactive waste beyond the 24,000 curies and 16.2 cubic feet of waste requested.

Therefore, you are authorized as of the date of your receipt of this communication to import from Tennessee Valley Authority, Browns Ferry Nuclear Plant to the Compact Facility in Andrews County, Texas 24,000 curies and 16.2 cubic feet of irradiated hardware described in agreement TLLRWDC #2-0297-00. This shipment is approximately 7% of the volume and 40% of the activity specified in Article II.J. of agreement TLLRWDC #2-0297-00.
