**Waste Classification**

Class A

**Name and Location of Proposed Treatment and /or Disposal Facility**

Energy Solutions, Clive, UT

**Approximate Date of Proposed Exportation (if known)**

January 2023

**Waste Description**

Medical isotopes, check sources, Ni-63 detection cell from Agilent Model 6890 gas chromatography system.

**Justification for Exportation**

The Army would like an expedited disposal of the material from Joint Base San Antonio. Disposal of this material at Waste Control Specialists will require an audit of the generator waste program of the Army and its broker, SIA Solutions. An audit cannot be facilitated in a timely manner for this project. The Army and SIA Solutions will investigate the audit procedures for future waste disposal projects.

**Does Applicant have any unresolved violation(s), complaint(s), unpaid fee(s), or past due report(s) with the Texas Low-Level Radioactive Waste Disposal Compact Committee?**

No.

**Does Applicant have any unresolved violation(s), complaint(s), unpaid fee(s), or past due reports associated with radioactive waste receipt, storage, handling, management, processing, or transportation pending with any other regulatory agency with jurisdiction to regulate radioactive material including, without limitation, the Texas Commission on Environmental Quality (TCEQ)?**

No.

**Applicant hereby certifies\* the following:**

The information provided herein is complete, accurate, and correct.

The low-level radioactive waste for which this Export Petition is submitted will be packaged and shipped in accordance with applicable state and federal regulations and is acceptable for disposal at the proposed disposal facility.
