Date: May 1, 2023

Stephen E. Raines

Executive Director

Texas Low-Level Radioactive Waste Disposal Compact Commission

919 Congress Avenue, Suite 830

Austin, Texas 78701

Subject: ADP CR3 Impact Agreement Amendment

Dear Mr. Raines:

With this letter, ADP-CR3 is requesting additional volume and curies for disposal under Import Agreement 2-0349-00. The original Import Agreement dated July 27, 2022 authorized importation for disposal of 4,000 cubic feet and 150 curies during the term of the agreement. The First Amendment to the Agreement dated April 20, 2023 increased the authorization of import for disposal to 7,650 cubic feet and 400 curies.

Due to further acceleration of D&D operations, ADP CR3 will exceed the volume and activity that was projected in the First Amendment. We request that an additional 2,350 cubic feet and 400 curies be added to Import Agreement 2-0349-00, for a new total of 10,000 cubic feet and 800 curies.

If you have any questions, please contact me at (352) 224-1200 ext. 2938

Sincerely,

Leon Bryant Atkins Jr.

ADP CR3 Decommissioning
