Name and Location of Proposed Treatment and /or Disposal Facility

Energy Solutions, Clive, UT

Approximate Date of Proposed Exportation (if known)

January 2023

Waste Description

Medical isotopes, check sources, Ni-63 detection cell from Agilent Model 6890 gas chromatography system.

Justification for Exportation

The Army would like an expedited disposal of the material from Joint Base San Antonio. Disposal of this material at Waste Control Specialists will require an audit of the generator waste program of the Army and

its broker, SIA Solutions. An audit cannot be facilitated in a timely manner for this project. The Army and SIA Solutions will investigate the audit procedures for future waste disposal projects.

Does Applicant have any unresolved violation(s), complaint(s), unpaid fee(s), or past due report(s) with the Texas Low-Level Radioactive Waste Disposal Compact Committee?

No.

Applicable Documents #1

Empty

Does Applicant have any unresolved violation(s), complaint(s), unpaid fee(s), or past due reports associated with radioactive waste receipt, storage, handling, management, processing, or transportation pending with any other regulatory agency with jurisdiction to regulate radioactive material including, without limitation, the Texas Commission on Environmental Quality (TCEQ)?

No.

Applicable Documents #2
