

Wolf Creek

Nuclear Operating Corporation

October 18, 2023

Texas Low-Level Radioactive Waste Disposal Compact Commission
919 Congress Avenue, Suite 830
Austin, Texas 78701

Attention : Mr. Brandon T Hurley
Chairman

Subject: Amendment for C&C Environmental Import Agreement TLLRWDC #2-0383-00

Dear Commissioner Hurley:

Wolf Creek Nuclear Operating Corporation is requesting an amendment to the import agreement TLLRWDC 2-0383-00. We are requesting an additional volume of 200 cf for a revised total of 900 cf for the current Fiscal Year ending August 31, 2024.

The curie amount will remain the same (150) as identified in the agreement. The request for this additional volume is because WCNOG upgraded processing equipment after we submitted the agreement and we did not account for the waste.

Please let me know if you have any questions.

Sincerely,

Doug Alagna
Radioactive Material Shipper
Wolf Creek Nuclear Operating Corporation
