Austin, Texas 78701

Subject: Amendment for HDI Import Agreement – TLLRWDC #2-0398-00

Dear Commissioner Hurley:

Holtec Decommissioning International (HDI) is requesting an amendment to the import agreement TLLRWDC# 2-0398-00. We are requesting an additional volume of 10,820 cubic feet (ft³) for a revised total of 24,820 ft³ for the current Fiscal Year (FY) ending August 31, 2024.

The curie amount will remain the same (3,200 Ci) as identified in our agreement. The request for this additional volume is because our decommissioning sites are generating increased filters /resin shipments. Also in New York, HDI initiated removal activities at Indian Point Energy Center Unit 1 which will continue through this FY. This removal and disposal activity had not been anticipated when we submitted the agreement last year and thus, we did not account for those waste volumes.

Please let me know if you have any questions.

Sincerely,

Ben Reynolds
Director of Environmental Affairs
Holtec Decommissioning International
