**Other Comments**

Hazen Research, Inc. will be exporting LLRW out of the RMLLRWC and part of the application process is providing proof that all the necessary importation documents for other compacts that require them have been acquired. Our waste broker for some of the waste (Curie Environmental Services) has requested the option to export the waste to either WCS or Energy Solutions, so I am acquiring a TLLRWDC import authorization should some or all of the waste be routed to WCS for disposal.

Attached is a copy of Hazen's Radioactive Materials License (listing Virginia Premo as Hazen's Radiation Safety Officer).

Please let us know if more information is required.
