**Subject:**        **Amendment for Wolf Creek Import Agreement TLLRWDCC #2-0478-00**

Dear Commissioner Hurley:

Wolf Creek Nuclear Operating Corporation is requesting an amendment to the import agreement TLLRWDCC 2-0478-00. We are requesting an additional waste radioactivity of 200 curies for a revised total of 350 curies for the current Fiscal Year ending August 31, 2026. This will account for the disposal of legacy waste that has been determined to have more activity than originally estimated.

The volume will remain the same (700 cf) as identified in the agreement.

Please let me know if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Alagna", with a long horizontal flourish extending to the right.
