Subject: RE: Texas Compact Commission Meeting - FY22 Import Applications

Good Morning Cory,

I authorize the Import Application to WCS and Texas TCEQ for FY2022. If there are any questions or concerns, please let me know. Thanks!

Ryan,

Do you authorize an Import Application to WCS & Texas – TCEQ for FY22 mentioned below? Only change to the attached application from current FY21 is the reduction in proposed waste volume to 1000 cubic feet as there are no resin liners awaiting disposal and minimal generation expected. This number still gives us room to ship resin liners should they be generated.

EXTERNAL - STOP & THINK before opening links and attachments.

Cory, Doug,

I was just informed that the last Compact Commission meeting for FY21, which ends on 8/31, will be held on 7/15. These are the meeting where they approve Import Applications. The Commission may meet again in Sept., but they aren't sure yet. So we are recommending that our customers submit their FY22 (9/1/21-8/31/22) by June 10th, which is the cutoff date for submittals. As you probably remember, you fill these out online at <http://www.tlirwdcc.org/importation-form/>. I've attached PI's previous application for reference. As with last year's, it's always good to add some additional volume and curies over what you expect to ship just in case anything changes. Call if you have any questions.

Thank you,

Dan Davis
