Texas Low-Level Radioactive Waste Disposal Compact Commission
919 Congress Avenue, Suite 830
Austin, TX 78701

Subject: Application for Importation of Non-Party Low-Level Radioactive Waste for Class A, Class B, and Class C stable and unstable non-compactible and compactible dry active waste (DAW) and sealed sources.

Please see the enclosed application from Veolia ES Alaron, L.L.C. d/b/a Alaron Nuclear Services (hereafter Alaron) for importation of Class A, Class B, and Class C stable and unstable DAW and sealed sources into the state of Texas. All waste will be disposed at the Waste Control Specialists, LLC facility located in Andrews, Texas. This application includes importation of non-compactible and compactible DAW and sealed sources from all states and United States territories except Texas and Vermont. Alaron will provide a signed Generator Authorization Form TLLRWDC Gen Auth November 2015 (or most recent revision) for each generator and export permits from all Low-Level Waste Compacts that require export permits. Generator Authorization forms and applicable export permits will be provided and Alaron will not ship waste without a Condition Removal Letter from the Commission.

Alaron respectfully requests that the application be considered and approved by the Texas Low-Level Radioactive Waste Disposal Compact Commission at its next meeting.

If you have any questions concerning this importation application, please contact me via phone at 724-698-9720 or via email at julian.owoc@alaronnuclear.com

Sincerely,

A handwritten signature in black ink that reads "Julian J. Owoc II".
