

TEXAS LOW-LEVEL RADIOACTIVE WASTE DISPOSAL

COMPACT COMMISSION

AGENDA

November 22, 2011

9:00 AM (Via Videoconference)

A quorum of the members of the Texas Low-Level Radioactive Waste Disposal Compact Commission will be present in Building E, Room 201 S, 12100 Park 35 Circle, Austin Texas, 78753, on the campus of the Texas Commission on Environmental Quality.

Commissioners Peter Bradford and Richard Saudek will participate by video conference from a facility located at Vermont Interactive Television, VIT Studio, Room 102, Morill Hall, Vermont Technical College, Randolph Center, Vermont 05061, which also is open to the public.

The Texas Low-Level Radioactive Waste Disposal Compact Commission will meet at the above-stated time, date, and locations to hold a work session on the items listed in the agenda set out below. No final actions will be taken.

1. Call to Order
2. Determination of Quorum
3. Introductions
4. Work session on Compact Commission Rules as follows:
 - a) Required changes to existing Compact Commission rules related to importation of waste from non-compact locations for disposal on the

Compact disposal site in Andrews County, Texas resulting from SB 1504 and SB 1605 of the Texas Legislature's 82nd regular session.

- b) Response to Petition for Rulemaking submitted by Waste Control Specialists, LLC
- c) Requirements for and forms for acceptance of petitions for acceptance of out of compact generated waste for disposal
- d) Rules related to procedures to be used for approval of waste generated in non compact party locations when such waste is imported for disposal at the Compact facility
- e) Requirements to be contained in agreements for importation for disposal of out of compact generated waste
- f) Requirements for forms of Agreements to be executed for importation for disposal of out of compact generated waste
- g) Any required changes in existing Compact Commission rules related to export of waste for processing with return to the Compact site for disposal
- h) whether there should be some priority given to particular types of waste or generators of waste (such as sealed sources);
- i) questions about who should or may be parties to any import agreements;
- j) issues related to export of waste for out-of-compact disposal in the context of anticipated revenue to the operator, Andrews County, and

the State when balanced with the need to have capacity reserved for in-
Compact generators during the operating life of the site;

- k) the need for rules dealing with importation and export of waste for management;
- l) discussion of procedures related to export petitions;
- m) any other subjects deemed appropriate.

5. It is anticipated that the result of the work session may be that information will be developed which will result in the expeditious final development for publication and subsequent adoption of one or more rules, one or more forms of application, and one or more forms of agreement.
6. Such other discussions related to the above topics as may be appropriate.

The work session is being scheduled to allow free exchanges of information, and for input, from interested parties.
