Leigh Ing, Executive Director

Presented at:
TLLRWDCC Workshop
November 2017
WORKSHOP INTRODUCTION & BRIEF OVERVIEW

• What is a Compact?
• What is a Low-Level Waste Compact?
• Why we are doing a workshop?
• Who you will be hearing from today?
A very famous Compact – The Colorado River Compact of 1922
Red River Compact
Texas Low-Level Radioactive Waste Disposal Compact Commission

- Our Compact protects the capacity of the Compact Facility for Texas and Vermont generators.

- The Compact Commissioner authorizes generators for Texas and Vermont to export out of the compact.

- The Compact Commission “makes available to the Texas and Vermont and the public information concerning low-level radioactive waste management needs, technologies and problems.” (See Public Law 105-236, Sec. 3.04(g)–September 20, 1998)
Waste Management Need – Source Disposal

- Why is Source Disposal So Important? (NNSA)
- Superfund! No One is Immune. (TCEQ)
- Source Storage and the 2-Year Rule. (TDSHS)
- How Can I Dispose of My Source? The SCATR Program. (CRCPD)
- How does a Compact Affect Me? (TLLRWDCC)
- Does Texas Have a Compact Facility? And Why Do I Care? (WCS)
- The Role of the TCEQ. (TCEQ)
Thank you for being here!
