RE: Import Agreement TLLRWDC #2-0179-00  
Curie Release Letter #3

Dear Mr. Tubman:

Pursuant to the condition expressed as a part of Article II.J. (c) of your Import Agreement TLLRWDC #2-0179-00 with the Texas Low-Level Radioactive Waste Disposal Compact Commission ("TLLRWDC"), I have received your request to dispose of irradiated hardware.

As of the date of this letter, there is sufficient remaining annual capacity for importation during State of Texas Fiscal Year 2018 to accommodate the shipment of the 7,960 curies and 55.7 cubic feet as requested in your letter dated March 20, 2018. This letter does not authorize the importation to the Compact Facility in Andrews County of any cubic feet or curies of low-level radioactive waste beyond the 7,960 curies and 55.7 cubic feet of irradiated hardware requested.

Therefore, you are authorized as of the date of your receipt of this communication to import from SNC E.I. Hatch Nuclear Plant to the Compact Facility in Andrews County, Texas 7,960 curies and 55.7 cubic feet of irradiated hardware described in agreement TLLRWDC #2-0179-00 as: irradiated hardware such as control rod blades, local power range monitors, dry tubes, velocity limiters, and other miscellaneous metal components. This shipment is approximately 19% of the volume and 22% of the activity specified in Article II.J. of agreement TLLRWDC #2-0179-00. With this letter, SNC E.I. Hatch Nuclear Plant has remaining 122.9 of 290 cubic feet and 11,280 of 36,000 curies authorized to be shipped conditionally under agreement TLLRWDC #2-0179-00.
