RE: Import Agreement TLLRWDCC #2-0191-00  
Curie Release Letter #1

Dear Mr. Long:

Pursuant to the condition expressed as a part of Article II.J. (c) of your Import Agreement TLLRWDCC #2-0191-00 with the Texas Low-Level Radioactive Waste Disposal Compact Commission ("TLLRWDCC"), I have received your request to dispose of irradiated hardware.

As of the date of this letter, there is sufficient capacity for importation during State of Texas Fiscal Year 2018 to accommodate the shipment of the 12,800 curies and 56.25 cubic feet as requested in your letter dated August 20, 2018. This letter does not authorize the importation to the Compact Facility in Andrews County of any cubic feet or curies of low-level radioactive waste beyond the 12,800 curies and 56.25 cubic feet of irradiated hardware requested.

Therefore, you are authorized as of the date of your receipt of this communication to import from Entergy Grand Gulf Nuclear Station to the Compact Facility in Andrews County, Texas 12,800 curies and 56.25 cubic feet of irradiated hardware described in agreement TLLRWDCC #2-0191-00. This shipment is approximately 17% of the volume and 13% of the activity specified in Article II.J. of agreement TLLRWDCC #2-0191-00. With this letter, Entergy Grand Gulf Nuclear Station has remaining 283.75 of 340 cubic feet and 87,200 of 100,000 curies authorized to be shipped conditionally under agreement TLLRWDCC #2-0191-00.
