

**FIRST AMENDMENT**  
TO THE AGREEMENT BETWEEN  
ENTERGY GRAND GULF  
AND  
THE TEXAS LOW-LEVEL RADIOACTIVE WASTE DISPOSAL  
COMPACT COMMISSION ("COMMISSION")

The Commission received a request on August 29, 2018 to amend Agreement #1-0191-00, Article II.J. (a) and (b) to increase the volume an additional 400 cubic feet and the activity an additional 30,000 Curies. After an affirmative vote by the Commission on October, 2018, the amendment is granted. Therefore, Article II.J. (a) and (b) are amended to read as follows:

(a) Waste Volume (Cubic Feet): 740  
(b) Waste Radioactivity in Curies: 130,000

1. No shipments may be made under this Agreement without further authorization from the Commission.
2. No less than 15 days before a shipment is made under this Agreement, the Generator shall provide the Commission a written notice containing evidence satisfactory to the Commission that a shipment will be made on the date proposed in the notice and that it will contain a specifically identified number of Curies. It is acknowledged that weather or other unforeseen conditions may cause a nominal delay of a shipment, but that delay shall not exceed 5 days, or a new condition removal letter will be required unless otherwise authorized by the Commission.
3. No shipment will be made until the Generator has received a written communication from the Commission that: (1) it has received the notice from the Generator; (2) it is satisfied that the shipment will be made on the proposed date and that it will contain approximately the proposed number of Curies; and (3) the disposal of the waste listed in the notice will not cause the total number of Curies disposed at the Compact facility to exceed the maximum yearly allowances for that operating year.
4. It is the understanding of the Generator that the Agreement is null and void and no further shipments can be made pursuant to the Agreement on or after the date during an operating year that the Facility has received low-level radioactive waste containing 275,000 curies.

This Amendment shall apply until the end of the agreement, August 31, 2019.
