RE: Import Agreement TLLRWDC #2-0208-00
Curie Release Letter #1

Dear Mr. Azar:

Pursuant to the condition expressed as a part of Article II.J. (c) of your Import Agreement TLLRWDC #2-0208-00 with the Texas Low-Level Radioactive Waste Disposal Compact Commission ("TLLRWDC"), I have received your request to dispose of 19,000 curies and 58 cubic feet of non-fuel reactor components (irradiated hardware) from the Clinton Power Station (IL).

As of the date of this letter, there is sufficient capacity for importation during State of Texas Fiscal Year 2018-2019 to accommodate the shipment listed above as requested in your email dated March 13, 2019. This letter does not authorize the importation to the Compact Facility in Andrews County of any cubic feet or curies of low-level radioactive waste beyond the 19,000 curies and 58 cubic feet of irradiated hardware requested.

Therefore, you are authorized as of the date of your receipt of this communication to import from Exelon Generation Clinton Power Station to the Compact Facility in Andrews County, Texas 19,000 curies and 58 cubic feet of irradiated hardware described in agreement TLLRWDC #2-0208-00. This shipment is approximately 97% of the volume and 95% of the activity specified in Article II.J. of agreement TLLRWDC #2-0208-00. With this letter, Exelon has approximately 2 of 60 cubic feet and 1,000 of 20,000 curies remaining to be shipped under agreement TLLRWDC #2-0208-00.

Brandon T. Hurley, Chairman
TLLRWDC
