Business Address
PO Box 817 Kingston, TN 37763
Mailing Address (if different)
PO Box 817 Kingston, TN 37763
Applicant is
Broker
Generator
Multiple generators: University of Texas Arlington; MD Anderson Research Smithville Campus and Texas BioMedical Research
Generator Type
Academic/Research
Export petitions generally will be granted to expire on August 31 (that is, the end of the Compact's fiscal and operating year). If you are seeking a term that would extend over more than one fiscal year, please explain the unusual circumstances that would justify a deviation from this principle?
Till August 31 of 2019

Waste Volume (Cubic Feet)

50

Waste Radioactivity (Curies)

.010

Waste Classification

Class A

Name and Location of Proposed Treatment and /or Disposal Facility

Energy Solutions Bear Creek Incineration Facility

Approximate Date of Proposed Exportation (if known)

June

Waste Description

Bulk low level Aqueous Liquids
UT Arlington less than 30 gallons
MD Anderson Smithville less than 200 gallons
Texas Biomedical less than 60 gallons

Justification for Exportation

In order to be acceptable for disposal at the Compact Waste Facility the liquids must be absorbed or solidified. This is a messy process that increases the volume of the waste and increases the risk of contamination at the generating facility and exposure to its workers. Incineration is the best demonstrated available technology available for this type of waste.

Does Applicant have any unresolved violation(s), complaint(s), unpaid fee(s), or past due report(s) with the Texas Low-Level Radioactive Waste Disposal Compact Committee?

No.

Does Applicant have any unresolved violation(s), complaint(s), unpaid fee(s), or past due reports associated with radioactive waste receipt, storage, handling, management, processing, or transportation pending with any other regulatory agency with jurisdiction to regulate radioactive material including, without limitation, the Texas Commission on Environmental Quality (TCEQ)?

No.

Applicant hereby certifies* the following:

The information provided herein is complete, accurate, and correct.
The low-level radioactive waste for which this Export Petition is submitted will be packaged and shipped in accordance with applicable state and federal regulations and is acceptable for disposal at the proposed disposal facility.

Name
John McCormick
Title
Vice President
Date
04/19/2019
Other Comments
Instead of multiple requests for the same waste stream for these small generators, we submitted one application as the waste would be removed and handled at one time and the volumes are very low.
