Waste Classification

Class A

Name and Location of Proposed Treatment and /or Disposal Facility

Energy Solutions Oak Ridge, TN for incineration

Approximate Date of Proposed Exportation (if known)

Throughout the year

Waste Description

Liquid scintillation vials, animal carcasses, small aqueous liquid vials.

Justification for Exportation

Recommended disposal pathway for biologicals is incineration. Liquids in vials require processing prior to disposal at the WCS facility. The processing required increases the risk of contamination, increases exposure of radionuclides to employees and creates additional waste volumes, resulting in higher disposal costs. Burning the liquids while in the glass and plastic vials is the best method to eliminate the volume, cost and most importantly reduces ALARA risks.

Does Applicant have any unresolved violation(s), complaint(s), unpaid fee(s), or past due report(s) with the Texas Low-Level Radioactive Waste Disposal Compact Committee?

No.

Does Applicant have any unresolved violation(s), complaint(s), unpaid fee(s), or past due reports associated with radioactive waste receipt, storage, handling, management, processing, or transportation pending with any other regulatory agency with jurisdiction to regulate radioactive material including, without limitation, the Texas Commission on Environmental Quality (TCEQ)?

No.

Applicant hereby certifies* the following:

The information provided herein is complete, accurate, and correct.

The low-level radioactive waste for which this Export Petition is submitted will be packaged and shipped in accordance with applicable state and federal regulations and is acceptable for disposal at the proposed disposal facility.

If a Broker is submitting this petition on behalf of the Petitioner, the Broker hereby certifies* the following

The Broker submitting this Export Petition is authorized by the Petitioner to act on behalf of the Petitioner related to this Permit for Exportation of InCompact waste. A copy of written documentation containing such authorization is attached to this Export Petition.
